

Q. What is Nufinna?

- A.** Nufinna is a nutritious smoothie mix that provides 12g of pure protein, for a powerful addition to any sensible meal. Nufinna utilizes hydrolyzed collagen protein, arctic cloudberry, and a nutrient-rich fruit and vegetable blend. Free of artificial colors and sweeteners, Nufinna gives you confidence you're fueling yourself with the best.

Q. What is AC² Technology?

- A.** AC² Technology is Visi's proprietary blend of hydrolyzed collagen protein and arctic cloudberry. This unique blend is the foundation of Nufinna's ability to fuel your lifestyle through superior protein delivery, and antioxidant protection.

Q. What does "hydrolyzed" mean?

- A.** Hydrolyzed means the protein has been broken down naturally to make it easily digestible and highly absorbable. Even those suffering from compromised digestive systems can benefit from hydrolyzed collagen protein. Visi's proprietary hydrolyzation process uses all-natural enzymes to maximize protein assimilation for the highest possible quality protein you can purchase at any price.

Q. What is the process to create hydrolyzed collagen protein?

- A.** Visi's hydrolyzed collagen protein is "hydrolyzed", meaning broken down, by a proprietary process of naturally dissolving collagen protein in water using fruit enzymes (not acid). Unlike gelatin, which is damaged by heat processing, fruit enzymes extract collagen protein without heat, chemicals, or acids. The collagen protein then goes through a multi-step process that includes micro-filtration and nano-filtration, sterilization, and drying. This enzymatic process takes up to six hours to ensure the finest quality protein.

Q. Why is hydrolyzed collagen protein better than other protein sources?

- A.** Hydrolyzed collagen protein is the most bio-available protein available. This means that it already occurs naturally in the human body, resulting in an amazing 95% absorption rate when consumed. Other commonly used proteins have a significantly lower absorption rates (Whey-53%, Soy-26%, Pea-16%). Once absorbed, hydrolyzed collagen protein is immediately recognized as part of the body, which results in faster and more effective utilization of this vital building block.

Q. What fruits and vegetables are contained in Nufinna?

- A.** Nufinna features arctic cloudberry, lingonberry, strawberry, raspberry, apricot, blueberry, spinach, kelp, broccoli, alfalfa, kale, and spirulina.

Q. What is the recommended time to take Nufinna?

- A.** Visi recommends adding Nufinna to a sensible breakfast to jump-start your metabolism, and again with a sensible lunch to continue providing balanced nutrition throughout your day. For best results, take 1-2 Probita between meals and as an after-dinner snack to curb cravings and continue optimal protein delivery

Q. What are the benefits of Nufinna?

- A.** Protein is an essential building block of life, and Nufinna contains the most bio-available protein on the market. With twelve grams of hydrolyzed collagen protein—boasting a 95% absorption rate—and two grams of fiber, this delicious smoothie helps curb cravings and leaves you feeling full. Nufinna's whole fruit and vegetable blend is a naturally nutritious snack with vitamins, minerals, and phytonutrients free of artificial colors and sweeteners.

Q. How many grams of protein are in Nufinna?

- A.** Nufinna contains 12g of hydrolyzed collagen protein.

Q. How many calories are in each serving of Nufinna?

A. Nufinna contains 90 calories per serving. Add fruits, vegetables, nut butters, or other favorite ingredients to your Nufinna smoothie to make it your own.

Q. What is the source of protein used in Nufinna?

A. The collagen protein comes from a bovine source, specifically the dermis layer (hide of the cow).

Q. Are the cows pasture-raised and grass-fed?

A. Yes. The cows are pasture-raised and grass-fed.

Q. Why use a bovine source of collagen and not a vegan source?

A. Bovine collagen and human collagen are nearly identical, so the body can instantly recognize and utilize hydrolyzed collagen protein. Vegan sources are not as effective.

Q. Is hydrolyzed collagen protein kosher certified?

A. Hydrolyzed collagen protein is kosher certified.

Q. Is Nufinna gluten-free?

A. Yes. Nufinna is gluten-free.

Q. Is Nufinna safe for pregnant or nursing mothers?

A. Yes. Nufinna is considered a food product safe for pregnant or nursing mothers to consume.

Q. Is Nufinna safe for children?

A. Yes. Nufinna is a great product for everyone in the family to enjoy.

Q. Can I take Nufinna along with other Visi products?

A. Yes! For weight loss, taking Nufinna with Probita and Valla will enhance your results. For best results use Nufinna in conjunction with a reduced calorie diet and exercise program.
