

### BENEFITS

**Optimal protein utilization** — Protein is an essential building block of life. Because it is naturally occurring in the body, hydrolyzed collagen protein has a 95% absorption rate, allowing fast and effective delivery of protein to where it is needed most.

**Supports joint flexibility** — Hydrolyzed collagen protein is essential in creating connective tissue, which improves mobility in the joints.

**Satisfies hunger** — With 12 grams of protein and two grams of fiber, this delicious smoothie helps curb cravings and leave you feeling full.

**Naturally nutritious snack** — Nufinna’s whole fruit and vegetable blend provides naturally occurring vitamins, minerals, and phytonutrients free of artificial colors and sweeteners.

### INGREDIENTS

**Hydrolyzed Collagen Protein** — Visi’s hydrolyzed collagen protein is the most absorbable and easiest to digest of any protein. Nufinna’s collagen is hydrolyzed via a patented process that uses natural fruit enzymes—rather than unnatural acid hydrolysis like many protein products use—to extract collagen protein without using heat, synthetic chemicals, or acids, just like nature intended. This guarantees the integrity of the finished molecules through a six-hour filtration, sterilization, and drying process. The care taken ensures the finest quality protein on the market, with a 95% absorption rate that the body can utilize better than any other protein source available.

**Arctic Cloudberry** — The rare arctic cloudberry is ripened under the phenomenon of the Midnight Sun in Scandinavia. Completely natural, distinctly flavorful, and highly prized for its nutritional value, the arctic cloudberry boasts high levels of vitamins A, C, E, and B as well as calcium and magnesium and also contains ellagitannins and ellagic acid. The Scandinavian people have depended on the arctic cloudberry (also known as Scandinavian Gold) for centuries to promote health and natural beauty.

**Lingonberry** — Related to the cranberry, bilberry, and blueberry, the lingonberry is a good, low-calorie source of fiber, and essential minerals and vitamins—especially vitamin E. Lingonberry is also characterized by its polyphenol content and has been demonstrated to possess antimicrobial and antioxidant activity in several studies.

**Fruit Blend** (*Apricot Fruit Powder, Strawberry Fruit Powder, Red Raspberry Leaf Powder, Blueberry Fruit Powder*) — Nufinna contains a specially crafted blend of fruits to improve your healthy lifestyle. Apricots contain beta-carotene which promotes a healthy heart and eyes. Strawberries contain Vitamin C and Manganese which protect the heart. Blueberries contain anthocyanins, known to protect the brain and improve memory. Blueberries also protect the heart, maintain blood sugar levels, support eye health, and provide antioxidant support.

**Vegetable Blend** (*Broccoli Extract, Alfalfa Leaf Powder, Spinach Powder, Kale Powder, Spirulina Powder, Atlantic Kelp Powder*) — These powerful greens keep your systems functioning at their peak. Dark green leafy vegetables are rich in chlorophyll which alkalizes the blood. Kale and broccoli are cruciferous leafy greens which boast high nutrient and glucosinolate content. Also abundant in these greens are magnesium and tryptophan, known to enhance heart health and brain function. Spinach and chard are both rich in iron, which carries oxygen to the blood for the best performance of your vital organs.
